History

Bonus feature

2 Coin symbols together with a Crown symbol on consecutive reels trigger the Bonus feature.

At the beginning of the Bonus 3 spins are awarded. During the Bonus each of the 15 reel positions spin independently. During the Bonus also Gem symbols with Mini, Minor, Major and Grand Cashpot values are available.

Every time a Coin or Gem symbol lands on a reel, the Multiplier for that reel increases by 1 (max. x6) after the value has been collected. The values of each Coin or Gem symbol that lands are multiplied by the Multiplier of the reel. During the Bonus the Crown symbols stick on the reels and collect the values of all landing Coin and Gem symbols. If one or more Coin, Gem or Crown symbols land on a Bonus spin, the number of remaining spins reset to 3.

The Bonus ends when no more spins remain.

Bonus feature

Lucky Crown feature

Any Crown symbol landing on the reels during the main game grants a chance of triggering the Lucky Crown feature which adds enough or more Coin symbols to trigger the Bonus.
